

Dr. SWARUP MISHRA: A VISIONARY TRANSFORMING HEALTHCARE AND POLITICS IN KENYA WITH MEDIHEAL

Mediheal Group of Hospitals' founder [Dr. Swarup Mishra](#) has revolutionized the Kenyan healthcare industry while simultaneously building his own legacy in the field of politics as well as philanthropy.

Dr. [Swarup Ranjan Mishra](#) is a prominent medic and businessman who have carved a niche for himself in Kenya's medic scene under the Mediheal Group of Hospitals. His efforts at pioneering specialized medic treatment, combined with his political and philanthropic activities, have contributed immensely to the region. Political frustrations aside, his vision for affordable and quality healthcare continues to redefine East Africa's medic scene.

Dr. Swarup Ranjan Mishra - A distinguished professional and leader

Dr. Swarup Mishra started his professional career with a long stint of medical education, with a special focus on Obstetrics & Gynaecology. Working in India and Germany, he moved to Moi University in Kenya, where he had a very significant role to play in medical education and research. In 2005, he founded Mediheal Hospital & Fertility Centre, which expanded soon across Kenya and into Rwanda. Mediheal opened up niche services like neurology, IVF, kidney transplant, and cardiology, with new standards in the healthcare sector of East Africa.

Aside from medicine, [Dr. Swarup Mishra](#) has been at the forefront of community service and charity work. He has assisted over a thousand students through scholarships, empowered farmers with gifts of heifers, and given away necessary equipment to underprivileged communities. His political leadership was such that, in 2017, he was elected Member of Parliament for Kesses, where he launched several development projects. His political life, however, was confronted with challenges during the 2022 elections because of changing allegiances and regional politics.

Dr. Swarup Mishra's image in Kenya is an emblem of his dedication to community and healthcare. He has been a pioneering force in transforming medical services through Mediheal and shaping society. Despite political setbacks, his legacy endures in changing the lives of people, solidifying his role as a visionary figure in the area.
